

Goodall Rubber Company Canada recently set up a national cell phone account with Advantage wireless (Carl Launt) in affiliation with TELUS Corporation Canada. Carl Lunt performed this task in the time frame which we needed and was very effective in providing Goodall with prompt customer service. Carl is always around to provide the services we need and expect from him. Advantage Wireless assisted us with getting the best prices in the industry while working with all the employee's specific wants and needs.

It was and is a pleasure working with Advantage and we thank Carl for all their hard work.

Sincerely,

Pat Greene
